

Lustiges Yesterday

Melodie von The Beatles: Yesterday

Yesterday

All those backups seemed a waste of pay
Now my server has gone away

Suddenly,

There"s not half the files there used to be
And the owners hanging over me
The system crashed so quickly

I pushed something wrong

What it was I could not say

Now all my data"s gone

And I long for Yesterday

Yesterday,

The tape rotation seemed so far away

I knew my server was here to stay

Now I believe in yesterday...
