Lustiges Yesterday

Melodie von The Beatles: Yesterday

Yesterday All those backups seemed a waste of pay Now my server has gone away

Suddenly, There"s not half the files there used to be And the owners hanging over me The system crashed so quickly

I pushed something wrong What it was I could not say

Now all my data"s gone And I long for Yesterday

Yesterday,

The tape rotation seemed so far away I knew my server was here to stay Now I believe in yesterday...
